

## **ClearStar Logistics Teams with Advanced Livescan Technologies to Launch FBI Finger Print Submission through ClearStar.net Technology Platform**

**Cumming, GA – August 26, 2010** - ClearStar Logistics, the back office solution provider for the employment and tenant screening industry, announced today a partnership with Advanced Livescan Technologies to offer an electronic fingerprint capture and National Criminal History Record Search solution via the ClearStar.net screening technology.

The launch of the new solution comes in direct response to the increased demand from employers for easier and more thorough criminal background checks. Federal and state laws require fingerprint checks for certain employment and licensing purposes including employers serving the financial sector, assisted housing (HUD programs), childcare, healthcare, transportation, government contractors and employees.

“Advanced Livescan Technologies’ strategic partnership with ClearStar Logistics provides a timely solution to the exponentially growing demand in fingerprint background check markets,” said Kevin J. Burke CEO of ALT. “The integration of our E-VeriTech SOLO now adds electronic tenprint Livescan and direct FBI submission capabilities to ClearStar Logistics’s already extensive list of automated background screening services”.

The fingerprint-based National Criminal History Search offers a comprehensive, nationwide search of FBI records from all 50 states and more than 86,000 reporting agencies. This includes Wanted Persons, Known or Suspected Terrorists, Supervised Release and Foreign Fugitives, Immigration Violators, Missing Persons, Individuals with Protection Orders against them, Violent Gang/Terrorist Organization Files, Identity Theft, and a Search of the National Sex Offender Registry. Average turnaround time is less than one hour.

“This new screening offering will allow firms on the ClearStar.net platform to process electronic fingerprints directly through a certified FBI Channeler,” stated Traci Ivester, COO ClearStar Logistics. “The team at Advanced Livescan has worked diligently with us to bring this new back office solution to the professional screening firms that we serve.”

### **About Advanced Livescan Technologies**

Advanced Livescan Technologies Inc. (Brook Park, OH), delivers identity assurance solutions that combine best practice employment screening policies with Biometric technology.
